DETAILED ACTION

Claims 1-43 are pending in the application.

Election/Restrictions

Applicant's election of Group IV (reproduced below) in the reply filed on April 12, 2010 is acknowledged.

Group IV. Claims 1 and 16-29 (in-part), drawn to methods of using compounds of Formula (I) represented

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The requirement is still deemed proper and is therefore made FINAL.

Note: Subject matter wherein **L** represents either

, as shown above, or

and **X** is

S, in both instances, in formula (I) has been examined in elected Group IV.

Subject matter not embraced by elected Group IV and Claims 2-15 and 30-43 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on April 12, 2010.

It is suggested that in order to advance prosecution, the non-elected subject matter be cancelled when responding to this Office Action.

Information Disclosure Statement

The Examiner has considered the Information Disclosure Statement(s) filed on October 4, 2006 and October 10, 2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate

paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Specification

Applicant is reminded to update the status of application(s) listed in the "Cross-Reference" on page 1 of the instant specification (i.e., the 371 application).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-21, 23 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim

the subject matter which applicant regards as the invention.

In claim 16, lines 1-2 of claim, the phrase "the compound of Formula (I) comprises a compound of Formula (IV)" should be changed to "the compound of Formula (I) is a compound of Formula (IV)" because the use of "comprises" in Markush claim language is improper.

In claim 20, line 1 of claim, "each comprise" should be changed to "are each".

Claim 23 lacks antecedent basis from claim 1.

In claim 25, the phrase "pharmaceutically acceptable salt comprises" should be changed to "pharmaceutically acceptable salt is".

The US patent cited on Form 892, U.S. Patent 3,264,315, is done so to show the state of the prior art.

Allowable Subject Matter

Claims 1, 22, 24 and 26-29 are objected to for containing subject matter outside of the scope of elected Group IV. Independent Claim 1 presented directed solely towards the elected invention of Group IV would appear allowable over the prior art of record.
